# FAMILY MIGRATION

Our immigration barristers regularly assist foreign national spouses, civil partners, unmarried partners, fiancé(e)s, proposed civil partners, children and adult dependent relatives to relocate to, and settle in, the UK with their British citizen or settled family members.

Whether you require expert advice on the requirements of the Immigration Rules, an independent assessment of your prospects of qualifying for a family visa or professional assistance with preparing a family visa application or appeal, our immigration barristers can help.

## WORK VISAS

Our team of business immigration barristers has experience in assisting employers and skilled workers across a variety of industries and in companies of all sizes.

From skilled workers looking to take up new opportunities in the UK, to employees of multinational companies transferring to a UK branch and senior employees of overseas businesses seeking to establish a UK branch or subsidiary, we can help ensure that your career progresses in full compliance with UK immigration law.

Whether you require expert advice on your work visa options under the UK's Immigration Rules, an independent assessment of your prospects of qualifying for a work visa or professional assistance with preparing a work visa application or review, our immigration barristers can help.

# STUDY VISAS

Our immigration barristers regularly assist international students to move to, or extend their stay in, the UK in order to pursue their education.

If you are over the age of 16 and have been offered an unconditional place on a course with an educational institution holding a Tier 4 Sponsor Licence then you may qualify for a Tier 4 (General) Student visa. Children aged between 4 and 17 years old can apply for a Tier 4 (Child) Student visa.

Our barristers are experts in the immigration options for students and will guide you through the Immigration Rules in order to ensure that you can start your course of study on time.

## BRITISH CITIZENSHIP

Our immigration barristers have experience assisting with all types of British nationality matters.

Whether you are looking to apply for naturalisation on your own or on the basis of your marriage to a British citizen, or register a claim to British citizenship either by entitlement or at the discretion of the Secretary of State, our barristers can guide you through the complexities of British nationality law.

If your application for British citizenship has been refused, our immigration barristers can advise on the merits of seeking a reconsideration of the decision and, if appropriate, assist with preparing an application for reconsideration.
